DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Frank (US 6,662,373). Frank discloses a clothing article/vest (21) including at least one rear portion being separate from but attachable to at least one front portion by a zipper (24) and has at least one attachment means (22) for releasable attachment of equipment located on at least one of the portions as shown in figures 1-3. Additionally, a belt (15) is attached to a lower portion of the clothing article as shown in figure 2.

With regard to claim 2, the vest of Frank is inherently capable of being used for mining.

Further, with regard to claim 6, the clothing article has two separate side portions releasably attachable to a back portion (29) by a pair of zippers (24) as shown in figure 5.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Frank in view of Puco et al. (US 5,909,802). Frank discloses the invention as set forth above except for showing a harness associated with a lumbar support belt and having a hydration system.

Puco et al. (hereinafter Puco) discloses a vest (10) including a harness (48) associated with a lumbar support belt (50) that includes an attachment buckle means and has pockets (100) as shown in figure 1.

It would have been obvious to one skilled in the art at the time the invention was made to provide the vest of Frank with a harness associated with a lumbar support belt as taught by Puco so that weight carried by the vest is uniformly distributed or depending on the end use thereof.

Further, it is obvious that the vest of Frank is provided with a pocket as taught by Puco that is capable of holding a water bottle/hydration system, etc as required for a particular application or end use thereof.

Art Unit: 3765

Allowable Subject Matter

5. Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
